**Determination of Customs Values of disposable Foam Cups**  
**under Section 25-A of the Customs Act, 1969**

(VALUATION RULING NO. 1002/2017)

No Misc/07/2010-II

30

Dated 05-01-2017

In exercise of the powers conferred under Section 25-A of the Customs Act, 1969, Customs values of disposable Foam Cups are determined as follows:

**2. Background of the valuation issue:** Customs values of disposable Foam Cups were earlier determined through Valuation Ruling No. 433/2012 dated, 17.02.2012. The Valuation Ruling No. 433/2012 dated, 17.02.2012 was more than 04 years old therefore an exercise was undertaken to re-determine the Customs Values of disposable Foam Cups in terms of Section 25-A of the Customs Act, 1969 with a view to reflect the current prices of these items prevailing in the international market.

**3. Stakeholders' participation in determination of Customs values:** Meetings with all the stakeholders including commercial importers was held on 08.11.2016, 23.11.2016 and 06.12.2016 to discuss the current international prices of the subject item. The commercial importers stated that the prices of subject items are showing down ward trend in the international markets. The view point of all participants was heard in detail and considered to arrive at Customs value of disposable Foam Cups.

**4. Method adopted to determine Customs values:** Valuation methods provided in Section 25 of the Customs Act, 1969 were duly applied in their regular sequential order to address the particular valuation issue at hand. The transaction value method as provided in Sub-Section (1) of Section 25, found inapplicable in light of the wide variety of invoices submitted at import stage the veracity of which could not be ascertained fully, hence requisite information required under law was not available to arrive at the correct transaction value. Identical / similar goods value method provided vide Sub-Sections (5) & (6) of Section 25 were examined for applicability to determine Customs value of subject goods, this data provided some references, however, it was found that the same cannot be solely relied upon due to the absence of absolute demonstrable evidence of qualities, and quantities of commercial level etc., and also it was observed that importers usually provided misleading description while declaring goods, as other types and varieties of similar goods to avoid the application of valuation ruling. Information available was, hence, found inappropriate. In line with the statutory sequential order of Section 25, this office then conducted a market inquiry using Deductive Value Method under Sub-Section (7) of the Section 25 of the Customs Act.

1969, however, it was found that the determination of Customs value could not be based solely upon this method either. Therefore, valuation method provided vide Section 25 (8) of Customs Act 1969, could not be applied as the conversion cost from constituent materials and allied expenses, at country of export were are not available. Finally, PRAL database, market information and international prices through Web were examined thoroughly. All the information so gathered was analyzed for determination of Customs Value of the subject items. Consequently, the Fall Back Method as provided under section 25(9) of the Customs Act, 1969 was applied to arrive assessable customs values of disposable Foam Cups.

5. **Customs values of for disposable Foam Cups:** Disposable Foam Cups *hereinafter specified* shall be assessed to duty/taxes at the following Customs Values :-

S. No	Description of goods	PCT Code	Proposed PCT for WEOC	Origin	Customs Values (C&F) US\$/KG
