Determination of Customs Values of Refrigerators Under Section 25-A of the Customs Act, 1969 1036

No. Misc/29/2016-VII 1315 (VALUATION RULING NO./ 2017) Dated: February 08, 2017

In exercise of the powers conferred under Section 25-A of the Customs Act, 1969, Customs values of Refrigerators are determined as follows: -

2. **Background of the valuation issue:** Customs values of Refrigerators were determined under Section 25A of the Customs Act, 1969, vide Valuation Ruling No.541/2013, dated 24-01-2013. A number of representations were received to re-determine the customs values afresh in the light of existing international market prices, according to different capacities. Therefore, this Directorate General initiated an exercise for determination of customs values of Refrigerators.

3 **Stakeholders' participation in determination of Customs values:** Different meetings with stakeholders were held. Importers were requested to furnish the following documents before or during the course of meeting:

- A. Invoices of imports during last three months showing factual value.
- B. Websites, names and E-mail addresses of known foreign manufacturers of the item in question through which the actual current value can be ascertained.
- C. Copies of Contracts made / LCs opened during the last three months showing the value of item in question.
- D. Copies of Sales Tax Invoices issued during last four months showing the difference in price (excluding duty and taxes) to substantiate that the benefit of difference in price is passed on to the local buyers.

4. The importers were of the view that the values of Refrigerators have gone down considerably in the international market. Resultantly the difference between the present international prices and the previous values determined vide Valuation Ruling No.541/2013 dated 24-01-2013 is increasing every day and the VR values of Refrigerators have no relevance with actual prevailing international prices. Some documents were submitted in this Directorate General. Resultantly numerous surveys were conducted for determination of the customs values.

5. **Method adopted to determine Customs values:** Valuation methods given in Section 25 of the Customs Act, 1969 were followed to arrive at customs values of different brands/capacity and models of Refrigerators. Transaction value method provided in Section 25 (1) was found inapplicable owing to wide variation in the values being declared to the customs. Identical / similar goods value methods provided in Section 25(5) & (6) were examined for applicability to the valuation issue in the instant case which provided some reference values of the subject goods but the same could not be exclusively relied on due to wide variation in declared values of subject goods. Stakeholder's meetings were also scheduled but during the meetings very divergent point of regarding international market prices was presented. Thereafter, market enquiry as envisaged under section 25(7) of the Customs Act, 1969, was conducted. For the purpose different markets were surveyed repeatedly. The computed value method as provided in Section 25(8) of the Customs Act, 1969, could not be applied as the conversion costs from constituent material at the country of

export were not available. Online values of subject goods were also obtained. All the information so gathered was evaluated and analyzed for the purpose of determination of customs values. Consequently, the Customs values of Refrigerators have been determined under Section 25(9) of the Customs Act, 1969.

6. **Customs values for Refrigerators:** Refrigerators *hereinafter* specified *shall* be assessed to duty/taxes at the following Customs Values: -
