DETERMINATION OF CUSTOMS VALUES OF BRANDED MILK (LACNOR, ALMARAI, SOYAFRESH MILK ETC.) UNDER SECTION 25-A OF THE CUSTOMS ACT, 1969

(VALUATION RULING NO. 1116 / 2016)

No. Misc/Misc/23/2016-I | 888

Dated: 29-03-2017

In exercise of powers conferred under Section 25-A of Customs Act, 1969 assessable customs values of imported tetra pack Milk (Lacnor, Almarai, Soyafresh milk etc.) of various brands are hereby determined as follows:-

2. **Background of the Valuation Issue:** This Directorate General had earlier conducted an audit of clearance values of subject goods and during the course of perusal of import clearance data, it was observed that imported tetra pack Milk (Lacnor, Almarai, Soyafresh milk etc.) were being assessed at lower values compared to the international selling prices and local market prices. As a stop-gap arrangement and to sensitize the clearance collectorates, this Directorate General earlier issued database values vide VDB letter 118 dated 05-12-2016 of imported tetra pack Milk (Lacnor, Almarai, Soyafresh milk etc.). Thereafter, as per policy in vogue, Valuation Database Reference values are required to be converted into Valuation Ruling for uniform applicability across the country. At the same time a number of importers filed representations to revisit the VDB values in accordance with their declarations. In this context, the Directorate General, valuation initiated an exercise for determination of customs values of imported Branded Milk (Lacnor, Almarai, Soyafresh milk etc.) under section 25A of Customs Act, 1969.

3. **Stakeholders' Participation in Determination of Customs Values:** Meetings for determination of customs values of tetra pack Milk (Lacnor, Almarai, Soyafresh milk etc.) were held with stakeholders held on 28-02-2017 & 21-03-2017 which were duly attended by stakeholders. Importers strongly contended and requested that the said Valuation Data Base values may be reviewed downwards. The importers were of the view that actual value of imported tetra pack Milk (Lacnor, Almarai, Soyafresh milk etc.) is lower than the values determined vide VDB letter No. 118 dated 05.12.2016 and that their costs of selling have not been correctly accounted for. Further, to determine veracity of their stance, the stakeholders insisted that a fresh market surveys be conducted from local market for determination of customs values of imported tetra pack Milk (Lacnor, Almarai, Soyafresh milk etc.) and that their extra

selling costs like allied expenses in shape of logistics and handling (due to perishable nature of goods) may be duly accounted for. Furthermore, due to limited shelf life of the subject goods, near expiry dates these perishable items are sold on sale and discounted prices, hence adding to their cost of selling. It was further contended by the traders that since the subject goods are mainly being sold on super and retail markets, therefore, a lot more expenses (shelf rent, marketing expenses etc.) are contributed at retail level which cannot be managed without taking extra profit margins. The importers contended that all these factors may also be considered in fixing value of subject goods. Prices are also verified on the basis of location of market in the city and date of expiry of the product in question.

4. Method Adapted to Determine Customs Values: Valuation methods provided in Section 25 of the Customs Act, 1969 were duly followed and applied sequentially to address the valuation issue at hand. Transaction value method provided in Sub-Section (1) of Section 25 was found inapplicable because the requisite information under the law was not available to arrive at the correct transaction value as the goods were found to be highly under invoiced when compared to international trading prices and also in terms of local selling prices. Furthermore, no invoices found from inside import-containers are reported by clearance Collectorate. Identical / similar goods value method provided in Sub-Sections (5) & (6) of Section 25 ibid were examined for applicability to determine Customs value of subject goods, this data provided some references, however, it was found that the same cannot be solely relied upon due to the absence of absolute demonstrable evidence of qualities, and quantities of commercial level etc., and also it was observed that same importers provide misleading description while declaring goods, as other types and varieties of similar goods to avoid the application of actual trading values. Information available was, hence, found inappropriate. In line with the statutory sequential order of Section 25, this office then conducted a market inquiry using Deductive Value Method under Sub-Section (7) of the Section 25 of the Customs Act, 1969, however, it was found that the determination of Customs value could not be based solely upon this method either. Therefore, valuation method provided vide Section 25 (8) of Customs Act 1969, could not be applied as the conversion cost from constituent materials and allied expenses, at country of export were are not available. Finally, Pral database, market information and international prices through Web were examined thoroughly. All the information so gathered was analyzed for determination of Customs Value of the subject good. Consequently, the Fall Back Method as provided under section 25(9) of the Customs Act, 1969 was applied to utilize all the above so gathered information, to arrive at assessable customs values of various brands of imported tetra pack Milk (Lacnor, Almarai, Soyafresh milk etc.).
