(VALUATION RULING NO. 1124/2017)

No. Misc/18 /2010-VII

Dated: April 12, 2017

In exercise of the powers conferred under Section 25-A of the Customs Act, 1969, Customs values of Enameled Winding Wires/Copper coated Aluminium winding wire are determined as follows: -

2. **Background of the valuation issue:** Several Reports/Representations were received regarding instances of under invoicing in import of Enameled Winding Wires/Copper coated Aluminium winding wire, being cleared under different H.S. Codes like 7605.2900, 7605.1100, 8544.1900, 7605.1900, 7408.1900, 8501.4090 etc. The Directorate through initial investigation found need to determine values of Enameled Winding Wire in the light of prevailing prices in the international market under Section 25A of the Customs Act, 1969, for uniform applicability, owing to such evidence of misdeclaration. Therefore, this Directorate General initiated an exercise for determination of customs values of Enameled Winding Wires/Copper coated Aluminium winding wire under Section 25A of the Customs Act, 1969.

3 **Stakeholders' participation in determination of Customs values:** Various meetings with stakeholders were conducted and a final meeting was held on 15-02-2017. Importers had been requested to furnish the following documents before or during the course of meeting:

- A. Invoices of imports during last three months showing factual value.
- B. Websites, names and E-mail addresses of known foreign manufacturers of the item in question through which the actual current value can be ascertained.
- C. Copies of Contracts made / LCs opened during the last three months showing the value of item in question.
- D. Copies of Sales Tax Invoices issued during last four months showing the difference in price (excluding duty and taxes) to substantiate that the benefit of difference in price is passed on to the local buyers.

4. No documents were submitted in this Directorate General on or before the said scheduled meeting.

5. **Method adopted to determine Customs values:** Valuation methods given in Section 25 of the Customs Act, 1969 were followed to arrive at customs values of Enameled Winding Wire. Transaction value method provided in Section 25 (1) was found inapplicable owing to wide variation in the values being declared to the customs. Identical / similar goods value methods provided in Section 25 (5) & (6) were examined for applicability to the valuation issue in the instant case which provided some reference values of the subject goods but the same could not be exclusively relied upon due to wide variation in declared values of subject goods.

Online values of subject goods were also obtained. Thereafter, market enquiry as envisaged under section 25(7) of the Customs Act, 1969, was conducted. For the purpose, different markets were surveyed repeatedly. Consequently, the Customs values of Enameled Winding Wires/Copper coated Aluminium winding wire have been determined under Section 25(7) of the Customs Act, 1969.
