The Collectors of Customs, Model Customs Collectorates Appraisement (East / West) / Port Muhammad Bin Qasim / Preventive, Karachi / Lahore (Appraisement / Preventive) / Sambrial (Sialkot) / Faisalabad / Multan / Islamabad / Hyderabad / Quetta / Peshawar/ Gawadar / Gilgit-Baltistan.

Determination of Customs Values of Networking Equipments (HS Code No. 8517.6930, 8517.6970 & 8517.6990) under section 25-A of the Customs Act, 1969

(Valuation Ruling No. 774 / 2015)

Misc/24/2015-VII 16967

Dated: December 01, 2015

In exercise of the powers conferred under Section 25-A of the Customs Act, 1969, Customs values of Networking Equipments are determined as follows:-

2. Background of the valuation issue: It was observed that different prices of Networking Equipments were being declared by their importers and there was no uniformity in their assessment. Different practices were being adopted by the clearance Collectorates while assessing them. It was also observed that huge under invoicing is being made in the import of the said equipments. In order to bring uniformity in assessment of the Networking Equipments by all clearance Collectorates, it was found essential to issue Valuation Ruling in this regard, based on available data, international prices as well as prices in the local market.

3. Stakeholders' participation in determination of Customs values: Meetings were held with the stakeholders on 21-10-2015 and 23-11-2015. Representatives of the importers stated that they get different discounts in different circumstances on import of networking equipment and their prices also vary from consignment to consignment. On departmental request they promised that they would furnish their selling price list and sales tax invoices regarding sale of their goods locally, but they failed to do so, despite repeated requests. Therefore, a final meeting notice was circulated among all the stakeholders for meeting to be held on 23-11-2015. They were requested to submit the supportive documents in support of prices they were declaring. Surprisingly, neither any reply/document was received nor those stakeholders who attended meeting held on 21-10-2015 appeared in meeting held on 23.11.2015. However, some new importers/stakeholders did appear who had not attended the previous meeting. They were also requested to furnish the prices of their brands and other supportive documents but they also failed to furnish the same. In view of the aforesaid position, and in the absence of any feedback from the importers, this Directorate conducted an exercise on its own, keeping in view the available data and market survey.

4. Method adopted to determine Customs values: Valuation methods given in Section 25 of the Customs Act, 1969 were applied sequentially to address the valuation issue at hand. Transaction Value Method under Sub-Section (1) of Section 25 of the Act ibid was found inapplicable because required information such as brand/other specifications were not declared by the importers in their goods declarations. Identical and Similar Goods valuation methods

provided in Sub-Sections (5) and (6) of Section 25 of the Customs Act, 1969 provided some reference values but due to wide variations and suppressed declaration, the same could not be relied upon. In a sequential order this office then resorted to conduct a market inquiry in terms of Sub-Section (7) of Section 25 of the Customs Act, 1969, wherein the local market prices of Networking Equipments covering maximum items available were obtained from different shops situated in Karachi.

5. **Customs values for Networking Equipments:** Networking Equipments *hereinafter specified shall* be assessed to duty/ taxes mentioned against each item as per Annex-A enclosed with this ruling. The customs values shall be applied on imports from any country as the values have been determined on the basis of Brand names, Models and specifications and it has been observed that origin does not significantly affect the values where Brands and Models are specifically mentioned in the networking equipment trade. If an item of networking equipment is imported under the brand name not covered under this Ruling, the same shall be brought to the notice of this Directorate General along with a sample of the item so that necessary amendment may be incorporated in the Ruling.

6. In cases where declared / transaction values are higher than the Customs values determined in this Ruling, the assessing officers shall apply those values in terms of Sub-Section (1) of Section 25 of the Customs Act, 1969. In case of consignments imported by air, the assessing officer shall take into account the differential between air freight and sea freight while applying the Customs values determined in this Ruling.

7. **Validity of this Valuation Ruling:** The values determined vide this Ruling shall be the applicable Customs value for assessment of subject imported goods until and unless it is rescinded or revised under Sub-Section (4) of Section 25-A of the Customs Act, 1969.

8. **Revision of the value determined vide this Valuation Ruling:** A revision petition may be filed against this Ruling, as provided under Section 25-D of the Customs Act, 1969, within 30 days from the date of issuance of this Ruling, before the Director General, Directorate General of Customs Valuation, 7th Floor, Custom House, Karachi.

9. The Collectors of Customs may kindly ensure that the values given in the Ruling for the given description of goods are applied by the concerned staff without fail. Any anomaly observed may kindly be brought to the notice of this Directorate General immediately.

MHM
(Manzoor Hussain Memon)
Director
