**Determination of Customs Values of Aluminum Hydroxide/Alumina Hydrate Under Section 25-A of The Customs Act, 1969**

(Valuation Ruling No. 819 / 2016)

No. Misc/13 /2009-II

18391

Dated: March 04, 2016

In exercise of the powers conferred under Section 25-A of the Customs Act, 1969, the Customs values of Aluminum Hydroxide/Alumina Hydrate are determined as follows:-

2. **Background of the valuation issue:** Customs values of Aluminum Hydroxide/Alumina Hydrate were determined vide Valuation Ruling No. 233/2010 dated 09-03-2010. The importers were demanding revision in prices of Aluminum Hydroxide/Alumina Hydrate (PCT heading 2818.3000) claiming that there is decline in the prices in the international market. Accordingly to ascertain the current prices prevailing in the international market, an exercise to re-determine the customs value of Aluminum Hydroxide/Alumina Hydrate was undertaken by this Directorate General.

3. **Stakeholder's participation in determination of Customs values:** Meeting with the stakeholders was held on 02-03-2016 which was attended by importers and office bearers / representatives of Pakistan Chemical Dyes Merchants Association (PCDMA). The stakeholders were requested to provide supporting documents including copies of contracts made, LCs, detailed particulars of foreign manufacturers, Sales Tax Invoices etc., to substantiate their contention of decrease in international market prices. During the meeting it was observed that there are two distinct forms of Aluminum Hydroxide/Alumina Hydrate being imported, one in powder form and the other in gel form. It was informed that gel form aluminum hydroxide is pharmaceutical grade and being imported mostly by pharmaceutical companies. Majority of imports, of aluminum hydroxide/ alumina hydrate in powder form is effected from India, whereas pharmaceutical grade aluminum hydroxide/ alumina hydrate is imported from other origins besides India. Pharmaceutical grade aluminum hydroxide/ alumina hydrate, in gel form is comparatively more expensive than aluminum hydroxide/ alumina hydrate in powder form.

There was a consensus that the new Ruling shall distinctly specify the two types of aluminum hydroxide/ alumina hydrate separately.

4. **Method adopted to determine customs values:** Valuation methods given in Section 25 of the Customs Act, 1969 were applied sequentially to address the valuation issue in hand. Transaction value method under Sub-Section (1) of Section 25 of the Act, 1969, was found inapplicable because of wide variations hence total reliance thereon cannot be made to ascertain the correct transactional value. Identical/similar goods value methods provided in Sub-Sections (5) & (6) of Section 25 ibid were also not found applicable in view of the reason mentioned above in the case of Sub-Section (1). Market enquiries, as envisaged under Section 25(7) of the Customs Act, 1969, were also conducted. There were certain variations in the market values owing to the location of the market in the city. The computed method as provided under Section 25(8) of the Customs Act, 1969 could not be applied as the conversion cost from constituent material at the country of export were not available. Online values of the subject item were also obtained. All the information so gathered was evaluated and analyzed for the purpose of determination of customs value. Consequently, the customs values of Aluminum Hydroxide/Alumina Hydrate have been determined under Section 25(9) of the Customs Act, 1969.

5. **Customs Values of Aluminum Hydroxide/Alumina Hydrate:** Aluminum Hydroxide/ Alumina Hydrate hereinafter *specified*, shall be assessed to duty/taxes on the Customs value mentioned against it in the Table below:

S. No.	Description of goods	PCT Heading	Proposed PCT for WeBOC	Origin	Customs Values (C&F) US\$/ Kg
(1)	(2)	(3)	(4)	(5)	(6)
1.	Aluminum Hydroxide/ Alumina Hydrate (powder form)	2818.3000	2818.3000.1000	India	0.27
			2818.3000.2000	Other origins	0.30
2.	Aluminum Hydroxide/ Alumina Hydrate (Gel / paste form)	2818.3000	2818.3000.3000	China, Korea, India	0.50
			2818.3000.4000	USA, EU, Japan	0.60

6. In cases where declared / transaction values are higher than the Customs values determined in this Ruling, the assessing officers shall apply those values in terms of Sub-Section

(1) of Section 25 of the Customs Act, 1969. In case of consignments imported by air, or by land route, the assessing officer shall take into account the differential between air freight or land route transportation charges and sea freight while applying the Customs values determined in this Ruling.

7. **Validity of Valuation Ruling:** The values determined vide this Ruling shall be the applicable Customs value for assessment of subject imported goods until and unless it is rescinded or revised by the competent authority in terms of Sub-Sections (4) of Section 25-A of the Customs Act, 1969.

8. **Revision of the value determined vide this Valuation Ruling:** A revision petition may be filed against this Ruling, as provided under Section 25-D of the Customs Act, 1969, within 30 days from the date of issue, before the Director General, Directorate General of Customs Valuation, 7<sup>th</sup> Floor, Custom House, Karachi.

9. The Collectors of Customs may kindly ensure that the values given in the Ruling for the given description of goods are applied by the concerned staff without fail. Any anomaly observed may kindly be brought to the notice of Director General immediately for redressal.

10. **This Valuation Ruling supersedes Valuation Ruling No.233/2010, dated 09-03-2010.**
