DETERMINATION OF CUSTOM VALUES OF SHOE POLISH
UNDER SECTION 25-A OF THE CUSTOMS ACT, 1969

(VALUATION RULING NO. 84/2016)

No. Misc/05/2014-11

18948

Dated: May, 02, 2016

In exercise of the powers conferred under Section 25-A of the Customs Act, 1969, Customs values of Shoe Polish are determined as follows: -

- Background of the valuation issue:** Since the earlier customs values of Shoe polish were determined more than three and half years ago through Valuation Ruling No.691/2014, dated 25-9-2014, a re-determination of customs values of these goods was deemed necessary to reflect the current price trend of these goods in the international markets. This prompted an exercise to re-determine the customs values of Shoe polish.
- Stakeholders' participation in determination of Customs values:** Meeting was scheduled on 20-04-2016, which was attended by commercial importers as well as Shoe Polish Importers and representatives of various clearances Collectorates.
- Method adopted to determine Customs values:** Valuation methods given in Section 25 of the Customs Act, 1969 were examined to ascertain which methods were applicable to the valuation issue in hand in terms of Section 25A(1) of the Act. Transaction value method provided in Section 25 (1) was found inapplicable because the sufficient information with respect to adjustments to be made to the transaction value in terms of Section 25(2) was not available. Identical / similar goods value Methods provided in Section 25(5) & (6) were examined sequentially for applicability to the valuation issue in the instant case. These methods furnished unreliable values and were not found applicable. Local market enquiry in terms of Section 25(7) of the Customs Act, 1969, was also conducted. Since the manufacturers' costs of producing the goods in question in the country of exportation were not available. Computed value method as provided in Section 25(8) could not be applied for valuation of the aforesaid goods. Deductive value method under Section 25(7) of the Customs Act, 1969, was, therefore, the methodology adopted to determine the customs values of Shoe Polish in this case.
