**Determination of Customs Values of I.V. Cannula/I.V.Catheter Under Section 25-A of the Customs Act, 1969**

(VALUATION RULING NO. 894 / 2016)

No.Misc/08/2012-VIII (B)/IX

Dated: July 29, 2016.

In exercise of the powers conferred under Section 25-A of the Customs Act, 1969, Customs values of I.V. Cannula/I.V.Catheter are determined as follows: -

2. **Background of the valuation issue:** Customs values of I.V. Cannula/I.V.Catheter were determined vide Valuation Ruling No.760/2015, dated 11-09-2015. The impugned Valuation Ruling required revision in line with the prevailing prices in the international market. Therefore, this Directorate General initiated an exercise for determination of customs value for I.V. Cannula/I.V.Catheter.

3. **Stakeholders' participation in determination of Customs values:** Meeting with stakeholders was held on 28-07-2016 and the importers were also requested to furnish the following documents:-

- Invoices of imports during last three months showing factual value.
- Websites, names and E-mail addresses of known foreign manufacturers of the item in question through which the actual current value can be ascertained.
- Copies of Contracts made / LCs opened during the last three months showing the value of item in question.
- Copies of Sales Tax Invoices issued during last four months showing the difference in price (excluding duty and taxes) to substantiate that the benefit of difference in price is passed on to the local buyers.

4. The meeting was attended by a local manufacturer and different importers. The importers, during the meeting, were of the view that the prices of the subject commodity have not increased in the international market. They claimed that the market values of the impugned goods were equivalent to the values determined vide previous Valuation Ruling. The manufacturer present during the meeting contended that value determined already are not truly reflecting international prices and also submitted documents, claiming that the values in international market, in certain cases, were higher than the determined values vide previous Valuation Ruling.

5. **Method adopted to determine Customs values:** Valuation methods given in Section 25 of the Customs Act, 1969 were followed to arrive at fair value of I.V. Cannula/ I.V. Catheter. Transaction value method provided in Section 25 (1) was found inapplicable owing to wide variation in the values being declared to the customs and incomplete descriptions. Identical/ similar goods value methods provided in Section 25(5) & (6) were examined for applicability to the valuation issue in the instant case which provided some reference values of the subject goods but the same could not be exclusively relied on due to wide variation in declared values of subject goods. Thereafter, market enquiry, as envisaged under Section 25(7) of the Customs Act, 1969, was conducted. Online prices were also obtained to corroborate the findings of the market surveys. Computed Value Method as provided in Section 25 (8) could not be applied for valuation of the aforementioned goods as the cost of raw material and fabrication charges under clause (a) and amount of profit and general expenses under clause (b) of Section 25 (8) of the Act, in the country of export, could not be ascertained. All the information so gathered was evaluated and analyzed for the purpose of determination of customs

values of I.V. Cannula/I.V.Catheter. Consequently, the Customs values of I.V. Cannula/I.V.Catheter have been determined under Section 25 (9) of the Customs Act, 1969.
