(VALUATION RULING NO. 923/2016)

In exercise of the powers conferred under Section 25-A of the Customs Act, 1969, Customs values of Industrial Rubber V-Belts, Industrial Rubber Conveyor Belts & Industrial Rubber Hose Pipes are determined as follows: -

2. **Background of the valuation issue:** Customs value of Industrial Rubber V-Belts, Industrial Rubber Conveyor Belts & Industrial Rubber Hose Pipes were determined vide Valuation Ruling No.359/2011 dated 26.07.2011. Since the Valuation Ruling was more than 5 years old and in the light of order of Honorable Sindh High Court in CP 6918 dated 10.11.2015 and requests by importers, an exercise was undertaken to re-determine the customs value of the subject goods under Section 25A of the Customs Act, 1969.

3. **Stakeholders' participation in determination of Customs values:** A Meeting with stakeholders was held on 16.08.2016 which was attended by the stakeholders. The commercial importers requested for downward revision keeping in view the decline in international prices of the commodity and its input goods. All the participants were requested to provide relevant documents, test reports, literature, Sales Tax invoices and proposed workings in support of their contention. However, no substantial evidence and relevant documents were submitted by the stakeholders to support their claim. Only 02 importer provided some sales tax invoices but the same could not be authenticated.

4. **Method adopted to determine Customs values:** Valuation methods provided under Section 25 of the Customs Act, 1969 were followed to arrive at fair value of Industrial Rubber V-Belts, Industrial Rubber Conveyor Belts & Industrial Rubber Hose Pipes. Transaction value method provided in Section 25 (1) was found inapplicable because the requisite information was not available. Identical / similar goods value Methods provided in Section 25(5) & (6) were examined for applicability to the valuation issue in the instant case which provided some reference values of the subject goods but the same could not be exclusively relied on due to wide variation in the prices. Thereafter, market enquiry as envisaged under Section 25(7) of the Customs Act, 1969, was also conducted. This method yielded some results but could not be exclusively relied upon to arrive at

customs values of the subject goods as there was variance in prices depending on selling point in the city. The computed value method as provided in Section 25(8) of the Customs Act, 1969, could not be applied as the conversion costs from the constituent material in the country of export were not available on line values were also checked. Keeping in view all the factors and after carefully analyzing all the information from different sources and input provided by the stakeholders during the meeting customs values of subject goods were determined under Section 25(9) of the Customs Act, 1969.
