**Determination of Customs Values of Potato Frozen French Fries under Section 25-A of the Customs Act, 1969**

(VALUATION RULING NO. 976/2016)

No.Misc/18/2012-I/

19939

Dated: 24-11-2016

In exercise of the powers conferred under Section 25-A of the Customs Act, 1969, Customs values of Potato Frozen French Fries are determined as follows:-

2. **Background of the valuation issue:** The Customs Values of Potato Frozen French Fries were determined under Section 25-A of the Customs Act, 1969 vide Valuation Ruling No. 842/2016 dated 02-05-2016. References were received from importing stakeholders for revision of valuation ruling as they claimed that international prices of Potato Frozen French Fries had declined. Accordingly to determine the assessable value of Potato Frozen French Fries in light of current prevailing prices in the international market, an exercise to determine the Customs values of subject goods was under taken by this Directorate General. It is pertinent to note here that M/s Siza Foods (Pvt) Ltd., has filed C.P. in the Honourable Sindh High Court against the impugned Order-In-Revision No. 230/2016 dated: 11.08.2016 and during the said meeting, it was contended that since the forthcoming ruling shall be applicable for future imports, therefore, they have no objection on issuance of valuation ruling for the subject goods afresh keeping in view the prevailing international and local market prices.

3. **Method adopted to determine Customs values:** Valuation methods provided in Section 25 of the Customs Act, 1969 were adopted and applied sequentially to address the valuation issue at hand. Transaction value method provided in Sub-Section (1) of Section 25 was found inapplicable because as the requisite information required under the law was not available and also as per international regulations, no invoices-in-containers were found along with the imported goods, hence, information required to arrive at transactional value was not available. Identical and similar-goods valuation methods provided in Sub-Sections (5) & (6) of Section 25 ibid were examined sequentially for applicability to determine Customs value of subject goods, this data provided some references however, it was found that the same could not be solely relied upon due to absence of absolute demonstrable evidence of qualities, commercial levels etc. and also it was observed that importers usually provide misleading descriptions while declaring their imports, as other types and verities of similar goods to avoid the valuation ruling. Information available was hence found inappropriate. In line with the statutory sequential order of section 25, this office then conducted a market enquiry using Deductive Value Method under Sub-Section (7) of the Section 25 of the Customs Act, 1969 but gathered information could not be exclusively relied on. Computed Value Method as provided in Section 25 (8) could not be applied for valuation of the aforementioned goods as the cost of raw material under clause (a) and amount of profit and general expenses under clause (b) of Section 25 (8) of the Act, in the country of export, could not be ascertained. On-line values were also checked. All the information was analyzed

and evaluated and Sub-Section (9) of Section 25 of the Customs Act, 1969, was applied to arrive at the assessable Customs values of Potato Frozen French Fries.

4. **Stakeholders' participation in determination of Customs values:** Meeting with stakeholders including importers, and representatives of trade bodies was held on 25.04.2016 to discuss the current international prices of the subject goods and to place before them the evidences available with this Directorate regarding the international values of subject goods. The view point of all participants was heard in detail and considered to arrive at Customs value. Importer M/s. MCR Pakistan (Private) Limited has also submitted invoice of Lamb Weston which were even higher than the previous values in-field, under section 25A of Custom Act, 1969. It was also highlighted by the importers that the subject goods are perishable items and therefore have got limited shelf life, consequently, near the expiry dates, these perishable items are sold on sales at discounted prices. It was further contended by the traders that since the subject goods are mainly being sold on super and general stores, therefore, a lot more expenses (shelf rent, marketing expenses and refrigeration cost etc.) are contributed at retail level which cannot be managed without adding extra value to the subject goods. The importers contended that all these factors may also be considered in fixing value of subject goods. Prices are also verified on the basis of location of market in the city and date of expiry of the product in question. While determining the prices the factors like mode and nature of essential packing have also been taken into account. Moreover, the importers agreed on the higher values of subject goods from Indian origin because of newly established plants/machinery as well as higher quality crop of potatoes.
