**Determination of Customs Values of Tyres & Tubes – II. (Light Truck & Truck/ Bus), under Section 25-A of the Customs Act, 1969**

(Valuation Ruling No. 1319 /2018)

No.Misc/08/2005-III

Dated: August 30<sup>th</sup>, 2018

In exercise of the powers conferred under Section 25-A of the Customs Act, 1969, the Customs values of Tyres & Tubes of Light Truck & Truck/ Bus are hereby determined as follows.

2. **Background of the valuation issue:** The customs values of tyres & tubes of different types and sizes including those of light truck & truck/ bus were determined under Section 25-A of the Customs Act, 1969 vide Valuation Ruling No. 1236/2017 dated 15-12-2017. However, different stakeholders requested to re-determine customs values afresh in line with values prevalent in the international market. Therefore, an exercise was initiated in terms of Section 25-A of the Customs Act, 1969 to determine customs values of subject goods in light of existing international market prices.

3. **Stakeholders' participation in determination of customs values:** Meetings were held on 24-04-2018, 04-06-2018 and 02-08-2018 with stakeholders including Pakistan Tyre Importers and dealers Association (PTIDA) and the officers from field formations. The importers had been requested to furnish the following documents before or during the course of above said meetings:-

- a. Invoices of imports during last three months showing actual value of goods.
- b. Websites, names and E-mail addresses of known foreign manufacturers of the item in question through which the actual current value can be ascertained.
- c. Copies of contracts made / LCs opened during the last three months showing the value of item in question.
- d. Copies of Sales Tax Invoices issued during last four months showing the values of supplies (excluding duty and taxes) to substantiate their contentions.

4. During the course of meetings, certain importers submitted that custom values of various tyres and tubes determined in the existing valuation ruling are on higher side, therefore, the same may be rationalized downward. They were requested to submit evidences in support of their claims. Pakistan Tyre Importers and Dealers Association (PTIDA) also submitted proposals for values of different types of tyres and tubes. Participants also requested to include additional sizes and types of tyres and tubes not explicitly covered under the Ruling. A number of importers and office bearers of PTIDA contended that difference between non radial and radial type tyres have been kept at very high level which is against the trade industry practice. This difference shall be brought down to a reasonable level. In the same way, differences in ply ratings have also been kept at unreasonably high level which shall also be brought to the reasonable level in line with trade industry practice. Certain stakeholders pointed towards escalation of prices of raw

materials of tyres and tubes therefore, prices shall be adjusted upward accordingly. Barring a few importers, most of the stakeholders abstained from submitting evidences and documents in support of their contentions. All available record and evidences were examined for the determination of customs values.

5. **Method Adopted to Determine Customs Values:** Valuation methods given in Section 25 of the Customs Act, 1969 were followed to arrive at customs values of tyres & tubes. Transaction value method provided in Section 25 (1) was found inapplicable because the requisite information was not available. Identical / similar goods value methods provided in Section 25(5) & (6) were examined for applicability to the valuation issue in the instant case which provided some reference values of the subject goods but the same could not be exclusively relied on. Thereafter, market enquiries as envisaged under section 25(7) of the Customs Act, 1969, were conducted which gave values for most of the tyres and tubes bought and sold in the local market. The tyres and tubes of some specifications were not readily available in the market; therefore, different markets were surveyed repeatedly. The computed value method as provided in Section 25(8) of the Customs Act, 1969, could not be applied as the conversion costs of the constituent material at the country of export were not available. Online values of subject goods were also obtained. All the information so gathered was evaluated and analyzed for the purpose of determination of customs values. Consequently, the Customs values of Tyres & Tubes of light truck & truck/ bus have been determined under Section 25(9) of the Customs Act, 1969.

6. **Customs Values of Tyres and Tubes:** Customs values of Tyres & Tubes of light truck & truck/ bus, *hereinafter specified*, shall be assessed to duty/taxes on the Customs values as mentioned at Annexure-A, which form integral part of this Valuation Ruling along with following conditions:-

- i. *If a radial tyre is imported which is not covered in this Ruling and whose specifications are similar to normal tyre except for being radial, such tyres may be assessed at 12% higher value than that of the normal tyre.*  
*Where only tyres are imported, other than tubeless, depreciation of 6% shall be allowed on ruling value. Conversely, if tube of a tyre specified in the ruling is imported, the values shall be assessed at 6% of the tyre value. This is applicable to only those tube sizes which are not mentioned in the Valuation Ruling No. 1321/2018 dated 30.08.2018.*
- iii. *Value of tyres with different "Ply" shall be assessed by adding or subtracting from the determined value @ 3% per two ply rating.*
- iv. *Discount of 5% is admissible for import of tyres & tubes through land route on C&F value determined by this Directorate General.*
- v. *If tyres and tubes having specifications other than those mentioned in the valuation ruling are imported, the Collectorates may assess the goods under Section 25 of the Customs Act, 1969 or may refer a case to this Directorate General for suitable advice.*

7. In cases where declared / transaction values are higher than the customs values determined in this Ruling, the assessing officers shall apply those values in terms of Sub-Section (1) of Section 25 of the Customs Act, 1969. In case of consignment imported by air, the assessing officer shall take into account the differential between the air freight and sea freight while applying the customs values in this ruling.

8. **Validity of this Valuation Ruling:** The values determined vide this Ruling shall be the applicable customs values for assessment of subject imported goods until and unless it is rescinded or revised by the competent authority in terms of Sub-Sections (1) or (3) of Section 25-A of the Customs Act, 1969.

9. **Revision of the Value Determined Vide This Valuation Ruling:** A revision petition may be filed against this Ruling, as provided under Section 25-D of the Customs Act, 1969, within 30 days from the date of issue of this ruling, before the Director General, Directorate General of Customs Valuation, 7<sup>th</sup> Floor, Custom House, Karachi.

10. The Collectors of Customs may kindly ensure that the values given in this Valuation Ruling for the given description of goods are applied by the concerned staff without fail. Any anomaly observed may kindly be brought to the notice of this Directorate General immediately. Customs values determined in the ruling are for the description and specification as mentioned in this Valuation Ruling. HS Codes are mentioned for illustrative purposes so that valuation ruling values are made accessible to the assessing officers. The assessment shall be finalized on the basis of correct classification after fulfilling requisite formalities related to importability or any other certification required thereon. In addition to this, it is further necessary to verify that there is no mis-declaration of any sort or violation of Import Policy Order or Section 15 of the Customs Act, 1969 or any other law in vogue therein.

11. ***This Valuation Ruling supersedes S.No 105-170 of Valuation Ruling No.1236/2017 dated 15.12.2017.***
