DETERMINATION OF CUSTOMS VALUES OF CAUSTIC SODA FLAKES

(VALEUATION RULING NO/052-2017)
No. Misc./29/2012-II 486
Dated: 23/02/2017

In exercise of powers conferred under Section 25-A of the Customs Act, 1969,
Customs values of Caustic Soda flakes are determined as follows:

2. Background of the valuation issue: The custom values of the Caustic Soda flakes
were earlier determined vide Valuation Ruling No 852/2016 dated 16.05.2016. There were
several representations from different traders and trade bodies i.e. Pakistan Chemicals and
Dyes Merchants Association (PCDMA) and Caustic Soda Manufacturers Association
(CSMA), for determination of customs value of the Caustic Soda flakes a fresh. The local
manufacturers have claimed that the prices of Caustic Soda flakes are showing upward trend
in the International market hence existing valuation ruling, which is over nine months old is
required to be revised in the light of honorable High Court of Sind, at Karachi's orders
dated 10.11.2015 in Constitutional Petition No. D- 6918/2015. Since 90 days have passed and
a number of representations were received from Caustic Soda Manufacturers Association
regarding values determined in the valuation ruling dated 16.05.2016, hence an exercise was
initiated to re-determine the values of Caustic Soda Flakes.

3. Stakeholders' participation in determination of Customs values: Meetings with
all the stakeholders including commercial importers, Pakistan Chemicals and Dyes
Merchants Association (PCDMA), Caustic Soda Manufacturers Association (CSMA), M/s
Sitara Chemicals (local Manufacturer) and representatives from clearance Collectorates, were
held on 07.02.2017 and 16.02.2017 to discuss the current international prices of Caustic Soda
flakes. The viewpoint of all participants was heard in detail and considered to arrive at
Customs value for Caustic Soda flakes.

4. Method adopted to determine Customs values: Valuation methods provided in
Section 25 of the Customs Act, 1969 were duly applied in their regular sequential order to
address the particular valuation issue at hand. The transaction value method as provided in
Sub-Section (1) of Section 25, found inapplicable in light of the wide variety of invoices
submitted at import stage the veracity of which could not be ascertained fully, hence requisite
information required under law was not available to arrive at the correct transaction value.
Identical / similar goods value method provided vide Sub-Sections (5) & (6) of Section 25
ibid were examined for applicability to determine Customs value of subject goods. this data
provided some references, however, it was found that the same cannot be solely relied upon.
due to the absence of absolute demonstrable evidence of qualities, and quantities of commercial level etc., and also it was observed that importers usually provided misleading description while declaring goods, as other types and varieties of similar goods to avoid the application of valuation ruling. Information available was, hence, found inappropriate. In line with the statutory sequential order of Section 25, this office then conducted a market inquiry using Deductive Value Method under Sub-Section (7) of the Section 25 of the Customs Act, 1969, however, it was found that the determination of Customs Value could not be based solely upon this method either. Therefore, valuation method provided vide Section 25 (8) of Customs Act 1969, could not be applied as the conversion cost from constituent materials and allied expenses, at country of export were are not available. Finally, Prel database, market information and international prices through Web were examined thoroughly. All the information so gathered was analyzed for determination of Customs Value of the subject good. Consequently, the Fall Back Method as provided under section 25(9) of the Customs Act, 1969 was applied to arrive asessable customs values of the Caustic Soda flakes.
