DETERMINATION OF CUSTOMS VALUES OF ALUMINUM UTENSILS (PCT 7615-1000) UNDER SECTION 25-A OF THE CUSTOMS ACT, 1969

(VALUATION RULING NO. 069/2017)

No. Misc/03/2017-V1

Dated 09-03-2017

In exercise of the powers conferred under Section 25-A of the Customs Act, 1969, Customs values of Aluminum Utensils, are determined as follows:

2. **Description of the valuation issue:** A representation was received from the Gujranwala Chamber of Commerce & Industry that Aluminum utensils are being assessed at lower values compared to the component costs and international trading prices. Therefore this Directorate General initiated an exercise to examine the issue under Section 25A of the Customs Act, 1969 and determine the customs values of aluminum utensils in order to bring them in line with current price trend in the international market.

3. **Stakeholders’ participation in determination of Customs values:** Meetings with stakeholders and Gujranwala Chamber of Commerce & Industry were scheduled on 09-02-2017 & 14-02-2017 but only representative from Gujranwala Chamber of Commerce and Industry attended the meetings. None of the importers attended the meetings. All the stakeholders were requested to submit the following documents so that correct customs values could be determined:

   i) Invoices of imports during last three months showing factual value.

   ii) Websites, names and E-mail addresses of known foreign manufacturers of the item in question through which the actual current value can be ascertained.

   iii) Copies of Contracts made / LCs opened during the last three months showing the value of item in question.

   iv) Copies of Sales Tax Invoices issued during last four months showing the difference in price (excluding duty and taxes) to substantiate that the benefit of difference in price is passed on to the local buyers.

4. The requisite documents were not submitted by any importer to substantiate their declarations therefore the matter could not be further pended.

5. **Method adopted to determine Customs values:** Valuation methods given in Section 25 of the Customs Act, 1969 were applied sequentially to address the valuation issue at hand. Transaction Value Method under sub-section (1) of Section 25 of the Act was found inapplicable because required information under the law was not available. Identical and Similar Goods valuation methods provided in sub-sections (5) and (6) of Section 25 of
the Customs Act, 1969 provided some reference values but due to wide variations in the
declarations the same could not be relied upon exclusively. In the sequential order this office
also conducted market inquiries in terms of sub-section (7) of Section 25 of the Customs Act,
1969. Input and feedback given by the Stakeholder Gujranwala Chamber of Commerce and
Industry representing manufacturers during meetings was also considered. Online prices were
also obtained. All the available information collected in above methods was analyzed and
evaluated. Keeping all the above information in view, customs values of Aluminum Utensils
are determined under sub-section (9) of Section 25 of the Customs Act, 1969.

6. **Customs values for Aluminum Utensils**: Aluminum Utensils hereinafter specified
shall be assessed to duty / taxes at the following customs values:-

rescinded or revised by the competent authority in terms Section 25-A of the Customs Act,
1969.

may be filed against this Ruling, as provided under Section 25-D of the Customs Act, 1969,

the given description of goods are applied by the concerned staff without fail. Any anomaly

accessible to the assessing officer. The assessment shall be finalized on the basis of correct
classification after fulfilling requisite formalities related to importability or any other
certification required thereon. In addition to this, it is further necessary to verify that there is no mis-declaration of any sort or violation of Import Policy Order or Section 15 of the Customs Act, 1969 or any other law in vogue therein.
