Determination of Customs Values of Networking Cables under Section 25-A
of the Customs Act, 1969 1208

VALUATION RULING NO. /2017

No. Misc/31/2013-VII

Dated: September, 15 2017

In exercise of the powers conferred under Section 25-A of the Customs Act, 1969, Customs values of Networking Cables are determined as follows: -

2. **Background of the valuation issue:** Customs values of Networking Cables were determined under Section 25A of the Customs Act, 1969, vide Valuation Ruling No.1085/2017, dated 16-03-2017. Representation was received from importer/trader that values as determined in Valuation Ruling may be revised as being older than 90 days in the light of order of Honorable Sindh High Court in CP 6918 dated 13.11.2015. Therefore, this Directorate General initiated an exercise for determination of customs values of Networking Cables.

3 **Stakeholders' participation in determination of Customs values:** A meeting with stakeholders was held on 01-08-2017. Importers were requested to furnish the following documents before or during the course of meeting:

- Invoices of imports during last three months showing factual value.
- Websites, names and E-mail addresses of known foreign manufacturers of the item in question through which the actual current value can be ascertained.
- Copies of Contracts made / LCs opened during the last three months showing the value of item in question.
- Copies of Sales Tax Invoices issued during last four months showing the difference in price (excluding duty and taxes) to substantiate that the benefit of difference in price is passed on to the local buyers.

4. No documents were submitted in this Directorate General on or even after the said scheduled meetings. During the course of meeting, stakeholders claimed that the Networking Cables of China origin have reduced in the international market as compared to the values determined in the existing valuation ruling. The importers contested that price of Taiwan for Networking Cable and Fiber Optic Cable may not be included with those of European origins and these prices are in the range of China. They were requested to submit import invoices, sales tax invoices, literature, evidences and other relevant requisite import documents in support of their contentions. They did not provide any documents or evidence to substantiate their contentions.

5. **Method adopted to determine Customs values:** Valuation methods given in Section 25 of the Customs Act, 1969 were followed to arrive at customs values of Networking Cables. Transaction value method provided in Section 25 (1) was found inapplicable owing

to wide variation in the values being declared to the customs. Identical / similar goods value methods provided in Section 25 (5) & (6) were examined for applicability to the valuation issue in the instant case which provided some reference values of the subject goods but the same could not be exclusively relied upon due to wide variation in declared values of subject goods. Thereafter, market enquiry as envisaged under section 25(7) of the Customs Act, 1969, was conducted. For the purpose, different markets were surveyed repeatedly. The computed value method as provided in Section 25(8) of the Customs Act, 1969, could not be applied as the conversion costs from constituent material at the country of export were not available. Online values of subject goods were also obtained. All the information so gathered was evaluated and analyzed for the purpose of determination of customs values. Consequently, the Customs values of Networking Cables have been determined under Section 25(9) of the Customs Act, 1969.

6. **Customs values for Networking Cables:** Networking Cables, as specified herein, shall be assessed to duty/ taxes at the Customs values given are as under:-
