SUBJECT: DETERMINATION OF CUSTOMS VALUE OF PLASTIC BEADS UNDER SECTION 25A OF THE CUSTOMS ACT, 1969.

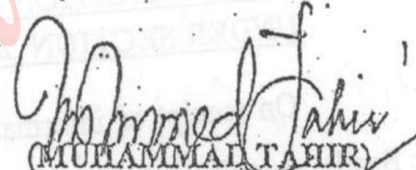

On receipt of information of under invoicing in the import values of Plastic Beads, as well as, in consideration of the reference received from the office of Chief Collector of Customs (South), vide letter dated 19-01-2012, proceedings were initiated to determine the customs values of the subject goods under section 25A of the Customs Act, 1969.

2. Accordingly, meetings were fixed for 14-09-2011, 03-10-2011 & 21-12-2011, to obtain input from the importers and other stakeholders but nobody responded. The import data of the instant goods, namely Plastic Beads from various sources was analyzed within the meaning of section 25(5) & (6) of the Customs Act, 1969. The declared/assessed value of Plastic Beads were found in the range of US\$0.51/kg to US\$0.80/kg, which was even lesser than the actual cost of its raw material. It was thus observed that the import data was not in consistence with the prices prevailing in the international market and could not be relied upon for the determination of fresh values. Value prevailing in the market was therefore examined as envisaged under section 25(7) of the Customs Act, 1969, which transpired the average price of US\$2.02/kg. Based upon these findings, customs values have been

determined under Deductive Method of valuation as envisaged under section 25(7) of the Customs Act, 1969, as under:-

S.No	HS CODE	Description of goods	Origin	Determined value
1	2	3	4	5
1	3926.4040	Plastic Beads	China	US\$2.02/kg
			All other origins	US\$2.63/kg

3. Accordingly, these values are hereby determined under Section 25A of the Customs Act, 1969. All the Customs Clearance Collectorates are advised to finalize assessment of subject goods on the values mentioned above. However, if the invoice value is higher, then such higher value shall be adopted for assessment purpose, in terms of Section 25 of the Customs Act, 1969.
