DETERMINATION OF CUSTOMS VALUES OF EXERCISE MACHINE
UNDER SECTION 25-A OF THE CUSTOMS ACT, 1969

(VALUATION RULING NO.563 / 2013)

In exercise of the powers conferred under section 25A of the Customs Act, 1969, customs
values of Exercise Machines are determined as follows:

1. Background – The customs values of various types of exercise machines (PCT Code: 9506.9100)
were determined vide Valuation Ruling No.530, dated 01-01-2013. A major importer of the said
goods filed a representation for the revision of customs values on the ground that the values fixed
were not reflective of actual market values in terms of section 25(7) of the Customs Act, 1969.
Taking into consideration the representation filed and also that about six months had passed since
the determination of previous values, an exercise to determine the customs values for the subject
goods was initiated in terms of section 25A of the Customs Act, 1969.

2. Methodology adopted to determine customs values - Valuation methods given in section 25 of
the Customs Act, 1969 were applied to address the valuation issue in hand in terms of section
25A(1) of the Act. Transactional value method provided in section 25(1) was found inapplicable
because of huge variation in declared values and non-availability of sufficient information with
respect to adjustments to be made to the transactional value in terms of section 25(2). Identical /
similar goods value methods provided in section 25(5) & (6) were examined for applicability to
the valuation issue in the instant case. These methods furnished some reliable values. Since the
manufacturers’ cost of producing the goods in question in the country of exportation were not
available, computed value method as provided in section 25(8) could not be applied for
valuation of the aforesaid goods. Deductive Value Method under section 25(7) of the
Customs Act, 1969, was thus applied to arrive at customs values.

3. Stakeholders Participation - Meeting was called of stakeholders to discuss the current
international values of Exercise Machines but only one importer appeared in the meeting and no
reply was received. The Deductive Value Method was applied and market enquiry conducted.
The values of Exercise Machines determined on the basis of deductive value method were also
substantiated.
4. Customs values for Exercise Machines hereinafter specified shall be assessed to duty/taxes at the following customs values:

5. Validity of this Valuation Ruling - The customs values determined in this Ruling shall continue to be the applicable customs values for the aforesaid goods till the time this Valuation Ruling is rescinded or revised by the competent authority in terms of section 25A of the Customs Act, 1969. Moreover, this Valuation Ruling applies to cases where declared values are less than the customs values determined in the ruling. In cases where declared values are more than the customs values determined in this ruling, the concerned assessing officers shall apply such higher values in terms of section 25(I) of the Customs Act, 1969. Moreover, in case of consignments imported by air, if the differential between air freight and sea freight, when taken into account, raises the customs values above those determined in this ruling, the concerned assessing officers shall apply such higher values in terms of section 25(I) of the Customs Act, 1969.

6. Remedies against this Valuation Ruling - The Customs Act, 1969 provides efficacious, alternate remedies against this Ruling. Section 25-D provides that any person aggrieved of the Ruling may file a revision petition within 30 days from the date of this Ruling before the Director General, Directorate General of Customs Valuation, 7th Floor, Custom House, Karachi. An appeal against the decision in revision of the Director General can be filed within 60 days of the decision before the Customs Appellant Tribunal under section 194-A (1) (e) of the Customs Act, 1969.
