** Determination of Customs Values of Blankets of different Types
Under Section 25-A of the Customs Act, 1969

(VALUATION RULING NO. 878/2016)

No.Misc/19/2012-IV 18/06-2016

In exercise of the powers conferred under Section 25-A of the Customs Act, 1969,
Customs values of Blankets of different qualities and various origins are determined as
follows:

2. Background of the valuation issue: Consequent upon representation by commercial
importers, regarding revision of Valuation Ruling No.507/2012 dated 20-12-2012 for Blankets of
different types and various origins, an exercise was undertaken to re-determine the Customs Values of
Blankets of different qualities and various origins, in terms of Section 25-A of the Customs Act, 1969.

3. Stakeholders’ participation in determination of Customs values: Meetings
were held on 30-03-2016, 02-05-2016 and 30-05-2016, with all the stakeholders including
local manufacturers of subject goods and representatives of clearance Collectorate who
participated in the meetings.

4. Method adopted to determine Customs values: Valuation methods provided in
Section 25 of the Customs Act, 1969 were duly followed and applied sequentially
to address the valuation issue at hand. Transaction value method provided in Sub-
Section (1) of Section 25 was found inapplicable because it is generally known to
all that majority of invoices produced at import stage are manipulated/fabricated
and hence the requisite information required under the law was not available to
arrive at the correct transaction value. Identical / similar goods value method
provided in Sub-Sections (5) & (6) of Section 25 ibid were examined for applicability to determine Customs value of subject goods, this data provided
some references, however, it was found that the same cannot be solely relied upon
due to the absence of absolute demonstrable evidence of qualities, and quantities
of commercial level etc., and also it was observed that importers usually provided
misleading description while declaring goods, as other types, and varieties of
similar goods to avoid the application of valuation ruling. Information available
was, hence, found inappropriate. This office then conducted market surveys using
Deductive Value Method under Sub-Section (7) of the Section 25 of the Customs
Act, 1969, however, it was found that the determination of Customs value could
not be based solely upon this method either. Therefore, valuation method provided
vide Section 25 (8) of Customs Act 1969, could not be applied as the conversion
cost from constituent materials and allied expenses, at country of export were are not available. Finally, import database, market information and international prices through Web were examined thoroughly. All the information so gathered was analyzed for determination of Customs Value of the subject good. Consequently, the Fall Back Method as provided under section 25(9) of the Customs Act, 1969 was applied to arrive assessable customs values of Blankets.

5. Customs values for Blankets of different qualities and various origins: Blankets of different qualities and various origins *[hereinafter specified]* shall be assessed to duty/taxes at the following Customs Values:
