Subject: **Development of Valuation Database; Reference Values for Glass Balls Assorted Design and Colour.**

This Directorate General has initiated an exercise to develop database values for different items wherein it has been observed that declarations are wide range and do not correctly reflect values of the items as traded in the international market. During the scrutiny of previous clearance data, it has been observed that Glass Balls Assorted Design and Colour falling under PCT headings 7002.1000 are being assessed at different values and certain transactions are on very low side.

2. This Directorate General, after carefully examining the clearance data, also conducted market inquiries to verify the authenticity of declarations. Online prices were also obtained to corroborate the findings of the market surveys. This office, therefore, has found that the customs value of Glass Balls assorted design and colour is as follows:

S. No.	Description of goods	Origin	Customs Value C&F US\$/ Kg
1	2	3	4
1	Glass Balls Assorted Design and Colour	China	US\$ 0.47/Kg

3. This value is, however, for reference/guidance only and final assessment may please be made after considering other factors which have bearing on the customs value.

4. The clearance Collectories may like to consider the values given above before finalizing the assessment of the subject item. If further fine-tuning in specifications and ensuing values are required, Collectory may forward a reference along with detailed justifications and worksheets so that requisite adjustments are accordingly issued.
