Determination of Customs Values of Toner Powder Black/Coloured in Bulk for  
Photocopiers and Printers under Section 25-A of the Customs Act, 1969

(VALUATION RULING NO. <sup>1369</sup> /2019)

No.Misc/05/2017-II <sup>11987</sup> Dated:May 6, 2019

In exercise of the powers conferred under Section 25-A of the Customs Act, 1969, Customs values of Toner Powder Black/Coloured in Bulk for Photocopier and Printers are determined as follows:

2. **Background of the valuation issue:** Earlier the Customs values of Toner Powder Black for Photocopier and Printer in Bulk, Branded/Un-Branded were determined vide Valuation Ruling No. 1114/2017, dated 29-03-2017. There were several representations from the stakeholders wherein they contended that the Valuation Ruling needs to be revised in accordance with the price trend in the international markets. Moreover, it was pointed out that the toner powder does not have any international brand name and instead, the packing shows the models/names of printers wherein the same can be used. It was suggested that Serial No. 1 of the existing VR is basically for cartridges of chapter 84 of Pakistan Custom Tariff, which are mostly costlier than the values given in the VR and there were chances of mis-declaration of classification. Keeping in view the prevailing prices of the subject goods, this Directorate General initiated an exercise for the re-determination of the Customs Values of the subject goods in terms of Section 25-A of the Customs Act, 1969.

3. **Stakeholders' participation in determination of Customs values:** Several meetings with stakeholders, including importers, and representatives from field formations were held in this Directorate General of Customs Valuation. The stakeholders were requested to furnish the following documents before or during the course of above said meetings:

- i. Invoices of imports during last three months showing factual value.
- ii. Websites, names and E-mail addresses of known foreign manufacturers of the item in question through which the actual current value can be ascertained.
- iii. Copies of Contracts made / LCs opened during the last three months showing the value of item in question.
- iv. Copies of Sales Tax Invoices issued during last four months showing the difference in price (excluding duty and taxes) to substantiate their contentions.

4. The meetings were attended by different stakeholders including importers, representatives of clearance collectorates, FPCC&I and KCC&I. The importers stated that the prices of the subject goods have shown downward trend internationally. The existing ruling is almost three years old and therefore needs to be rationalized as per the international market trend. They further contended that they were importing toner powder in bulk without any brand

name, while the Collectorates are assessing at value of branded toner powder. Some of the importers submitted the requisite documents in support of their contentions. The view point of all participants was heard in detail and considered to arrive at the customs value of subject goods.

5. **Method adopted to determine Customs values:** Valuation methods given in Section 25 of the Customs Act, 1969, were followed to arrive at customs value of Toner Powder Black/Coloured in Bulk for Photocopier and Printers. Transaction value method provided in Section 25 (1) was found inapplicable owing to wide variations in the values being declared to the customs and incomplete descriptions. Moreover, no participant submitted substantial document, which would have helped in arriving at the true transaction value. Identical/ similar goods value methods provided in Section 25 (5) & (6) were examined for applicability to the valuation issue in the instant case which provided some references but the same could not be exclusively relied on. The market enquiry as envisaged under Section 25 (7) of the Customs Act, 1969, could not be exclusively relied either. Online prices were also obtained to corroborate the findings of the market surveys. Computed Value Method as provided in Section 25 (8) could not be applied for valuation of the aforementioned goods as the cost of raw material and general expenses in the country of export, could not be ascertained. All the information so gathered was evaluated and analyzed for the purpose of determination of customs values of Toner Powder Black/Coloured for Photocopier and Printer. Consequently, the Customs values of Toner Powder Black/Coloured in bulk for Photocopier and Printers have been determined under Section 25 (9) of the Customs Act, 1969.
