**DETERMINATION OF CUSTOMS VALUES OF CHANDELIERS, PENDANTS  
& OTHER HANGING LIGHTS AND PARTS THEREOF UNDER  
SECTION 25-A OF THE CUSTOMS ACT, 1969**

**(VALUATION RULING NO. 1393 / 2019)**

No. Reg. Misc/02/2011-VIII(B)/IX/2486

Dated: October 16, 2019

In exercise of the powers conferred under Section 25-A of the Customs Act, 1969, the Customs values of Chandeliers, Pendants and other Hanging Light and Parts thereof are determined as follows :-

2. **Background of the valuation issue:** Customs values of Chandeliers, Pendants and other Hanging Lights and Parts thereof were earlier determined through Valuation Ruling No. 1185/2017 dated 16-06-2017. The Federal Board of Revenue issued CGO No. 15/2019 & 17/2019 dated 13-09-2019 and 19-09-2019 respectively wherein Unit of Measurement (UOM) of a number of commodities including Chandeliers was changed from Kilograms to Unit (Per Piece) for the purpose of assessment. Moreover, a number of representations were received in this Directorate General that the values of subject goods in international market have shown upward trend which requires re-determination of values. In addition to above, it has also been observed that Parts of Chandeliers were grossly under-valued and material aspects as to iron, stainless steel, brass, zinc & aluminum were not being taken into consideration at the time of assessment. This resulted in wide difference between finished goods and parts, resulting in loss of revenue. Therefore, keeping in view the above factors, an exercise to determine the Customs values of the subject goods under Section 25-A was initiated.

3. **Stakeholders' participation in determination of values:** Meetings with stakeholders were convened on 23-08-2019 and 17-09-2019 which were attended by different stakeholders & importers. All the stakeholders / importers were requested to submit following documents before or during the course of meetings so that customs values could be determined:

- Invoices of imports during last three months showing customs value.
- Websites, names and E-mail addresses of known foreign manufacturers of the item in question through which the actual current value can be ascertained.
- Copies of Contracts made / LCs opened during the last three months showing the value of item in question.

iv. Copies of Sales Tax Invoices issued during the last four months showing the difference in price (excluding duty and taxes) to substantiate their contentions.

4. During the course of meetings the participants mainly contended that that Parts of Chandeliers were grossly under-valued and material aspects as to iron, stainless steel, brass, zinc & aluminum were not taken into consideration. It was also argued that values of Chandeliers have shown downward trend, but no documents, whatsoever, were submitted by anybody to substantiate said contention.

5. **Method adopted to determine Customs values:** Custom Valuation methods given in Section 25 of the Customs Act, 1969 were followed / applied in sequential order to address the valuation of Chandeliers, Pendants and other Hanging Lights and parts thereof. Transaction value method under Sub-Section (1) of Section 25 of the Act ~~ibid~~ was found inapplicable because requisite information ~~under the law~~ was not available. Identical/similar goods valuation methods provided in Sub-Sections (5) & (6) of Section 25 of the Customs Act, 1969 provided some reference values but due to wide variation and suppressed declarations, the same could not be relied upon. In the sequential order this office then resorted to conduct a market inquiry and, consequently, Deductive Value Method under Sub-Section (7) of Section 25 of the Customs Act, 1969, was applied to arrive at the assessable Customs values of the subject goods, being most appropriate for the purpose. All the information so gathered was evaluated and analyzed for the purpose of determination of customs values.

6. **Customs values for:** Chandeliers, Pendants and other Hanging Light and Parts thereof *hereinafter specified* shall be assessed to duty/ taxes on the Customs values given against them in the Table-A & Table-B below :-
