

## Chapter 62

### **Articles of apparel and clothing accessories, not knitted or crocheted**

#### **Notes.**

1.- This Chapter applies only to made up articles of any textile fabric other than wadding, excluding knitted or crocheted articles (other than those of heading 62.12).

2.- This Chapter does not cover :

- (a) Worn clothing or other worn articles of heading 63.09; or
- (b) Orthopaedic appliances, surgical belts, trusses or the like (heading 90.21).

3.- For the purposes of headings 62.03 and 62.04 :

- (a) The term " suit " means a set of garments composed of two or three pieces made up, in respect of their outer surface, in identical fabric and comprising :
  - one suit coat or jacket the outer shell of which, exclusive of sleeves, consists of four or more panels, designed to cover the upper part of the body, possibly with a tailored waistcoat in addition whose front is made from the same fabric as the outer surface of the other components of the set and whose back is made from the same fabric as the lining of the suit coat or jacket; and
  - one garment designed to cover the lower part of the body and consisting of trousers, breeches or shorts (other than swimwear), a skirt or a divided skirt, having neither braces nor bibs.

All of the components of a " suit " must be of the same fabric construction, colour and composition; they must also be of the same style and of corresponding or compatible size. However, these components may have piping (a strip of fabric sewn into the seam) in a different fabric.

If several separate components to cover the lower part of the body are presented together (for example, two pairs of trousers or trousers and shorts, or a skirt or divided skirt and trousers), the constituent lower part shall be one pair of trousers or, in the case of women's or girls' suits, the skirt or divided skirt, the other garments being considered separately.

The term " suit " includes the following sets of garments, whether or not they fulfil all the above conditions :

- morning dress, comprising a plain jacket (cutaway) with rounded tails hanging well down at the back and striped trousers;
  - evening dress (tailcoat), generally made of black fabric, the jacket of which is relatively short at the front, does not close and has narrow skirts cut in at the hips and hanging down behind;
  - dinner jacket suits, in which the jacket is similar in style to an ordinary jacket (though perhaps revealing more of the shirt front), but has shiny silk or imitation silk lapels.
- (b) The term " ensemble " means a set of garments (other than suits and articles of heading 62.07 or 62.08) composed of several pieces made up in identical fabric, put up for retail sale, and comprising :
- one garment designed to cover the upper part of the body, with the exception of waistcoats which may also form a second upper garment, and

- one or two different garments, designed to cover the lower part of the body and consisting of trousers, bib and brace overalls, breeches, shorts (other than swimwear), a skirt or a divided skirt.

All of the components of an ensemble must be of the same fabric construction, style, colour and composition; they also must be of corresponding or compatible size. The term "ensemble" does not apply to track suits or ski suits, of heading 62.11.

4.- For the purposes of heading 62.09 :

- (a) The expression "babies' garments and clothing accessories" means articles for young children of a body height not exceeding 86 cm;
- (b) Articles which are, *prima facie*, classifiable both in heading 62.09 and in other headings of this Chapter are to be classified in heading 62.09.

5.- Garments which are, *prima facie*, classifiable both in heading 62.10 and in other headings of this Chapter, excluding heading 62.09, are to be classified in heading 62.10.

6.- For the purposes of heading 62.11, "ski suits" means garments or sets of garments which, by their general appearance and texture, are identifiable as intended to be worn principally for skiing (cross-country or alpine). They consist either of :

- (a) a "ski overall", that is, a one-piece garment designed to cover the upper and the lower parts of the body; in addition to sleeves and a collar the ski overall may have pockets or footstraps; or
- (b) a "ski ensemble", that is, a set of garments composed of two or three pieces, put up for retail sale and comprising :
  - one garment such as an anorak, wind-cheater, wind-jacket or similar article, closed by a slide fastener (zipper), possibly with a waistcoat in addition, and
  - one pair of trousers whether or not extending above waist-level, one pair of breeches or one bib and brace overall.

The "ski ensemble" may also consist of an overall similar to the one mentioned in paragraph (a) above and a type of padded, sleeveless jacket worn over the overall.

All the components of a "ski ensemble" must be made up in a fabric of the same texture, style and composition whether or not of the same colour; they also must be of corresponding or compatible size.

7.- Scarves and articles of the scarf type, square or approximately square, of which no side exceeds 60 cm, are to be classified as handkerchiefs (heading 62.13). Handkerchiefs of which any side exceeds 60 cm are to be classified in heading 62.14.

8.- Garments of this Chapter designed for left over right closure at the front shall be regarded as men's or boys' garments, and those designed for right over left closure at the front as women's or girls' garments. These provisions do not apply where the cut of the garment clearly indicates that it is designed for one or other of the sexes.

Garments which cannot be identified as either men's or boys' garments or as women's or girls' garments are to be classified in the headings covering women's or girls' garments.

9.- Articles of this Chapter may be made of metal thread.

## GENERAL

This Chapter covers men's, women's or children's articles of apparel, clothing accessories and parts of apparel or of clothing accessories, made up of the fabrics (excluding wadding but including felt or nonwovens) of Chapters 50 to 56, 58 and 59. With the **exception** of the articles of heading 62.12, articles of apparel, clothing accessories and parts made of knitted or crocheted material are **excluded** from this Chapter.

The classification of goods in this Chapter is not affected by the presence of parts or accessories of, for example, knitted or crocheted fabrics, furskin, feather, leather, plastics or metal. Where, however, the presence of such materials constitutes **more than mere trimming** the articles are classified in accordance with the relative Chapter Notes (particularly Note 4 to Chapter 43 and Note 2 (b) to Chapter 67, relating to the presence of furskin and feathers, respectively), or failing that, according to the General Interpretative Rules.

Electrically heated articles remain in this Chapter.

By application of the provisions of Note 8 to this Chapter garments having a front opening which fastens or overlaps left over right are considered to be garments for men or boys. When the opening fastens or overlaps right over left these garments are considered to be garments for women or girls.

These provisions do not apply where the cut of the garment clearly indicates that it is designed for one or the other of the sexes. Garments which cannot be identified as either men's or boys' garments or women's or girls' garments are to be classified in the headings covering women's or girls' garments.

Shirts and shirt-blouses are garments designed to cover the upper part of the body, having long or short sleeves and a full or partial opening starting at the neckline. Blouses are also designed to cover the upper part of the body but may be sleeveless and without an opening at the neckline.

By application of Note 14 to Section XI, garments of different headings are to be classified in their own headings even if put up in sets for retail sale. This, however, does not apply to garments put up in sets which are specifically mentioned in the heading texts, for example, suits, pyjamas, swimwear. It should be noted that, for the application of Note 14 to Section XI, the expression "textile garments" means garments of headings 62.01 to 62.11.

This Chapter also covers unfinished or incomplete articles of the kind described therein, including shaped textile fabric for making such articles and shaped knitted or crocheted fabrics for making articles or parts of articles of heading 62.12. Provided these products have the essential character of the articles concerned, they are classified in the same headings as the finished articles. However, parts of garments or of clothing accessories, not knitted or crocheted (**other than** those of **heading 62.12**) are classified in **heading 62.17**.

The Chapter also **excludes** :

- (a) Articles of apparel and clothing accessories of **heading 39.26, 40.15, 42.03 or 68.12**.
- (b) Pieces of textile fabric which have undergone some working (such as hemming or the formation of necklines), intended for the manufacture of garments but not yet sufficiently completed to be identifiable as garments or parts of garments (**heading 63.07**).

- (c) Worn clothing and other worn articles of **heading 63.09**.
- (d) Garments for dolls (**heading 95.03**).

**Subheading Explanatory Note.**

**Classification of articles made from quilted textile products in the piece of heading 58.11**

Articles made from the quilted textile products in the piece of heading 58.11 are to be classified within the subheadings of the headings of this Chapter under the provisions of Subheading Note 2 to Section XI. For the purposes of their classification, it is the textile material of the outer fabric which gives these articles their essential character. This means that where, for example, a man's quilted anorak has an outer fabric of 60 % cotton and 40 % polyester, the garment falls in subheading 6201.92. It should be noted that, even if this outer fabric by itself falls in heading 59.03, 59.06 or 59.07, the garment does not fall in heading 62.10.
