

## 07.11

**07.11 - Vegetables provisionally preserved (for example, by sulphur dioxide gas, in brine, in sulphur water or in other preservative solutions), but unsuitable in that state for immediate consumption.**

0711.20 - Olives

0711.40 - Cucumbers and gherkins

- Mushrooms and truffles :

0711.51 - - Mushrooms of the genus *Agaricus*

0711.59 - - Other

0711.90 - Other vegetables; mixtures of vegetables

This heading applies to vegetables which have been treated solely to ensure their provisional preservation during transport or storage prior to use (e.g., by sulphur dioxide gas, in brine, in sulphur water or in other preservative solutions), **provided** they remain unsuitable for immediate consumption in that state.

Vegetables covered by this heading are generally packed in casks or barrels, and are mainly used as raw materials for manufacturing purposes; the principal varieties are onions, olives, capers, cucumbers, gherkins, mushrooms, truffles and tomatoes.

However the heading **excludes** goods which, in addition to having been provisionally preserved in brine, have also been specially treated (e.g., by soda solution, by lactic fermentation); these fall in **Chapter 20** (for example, olives, sauerkraut, gherkins and green beans).
