DETERMINATION OF CUSTOM VALUES OF ICE CREAM,
UNDER SECTION 25-A OF THE CUSTOMS ACT, 1969

(VALUATION RULING NO. 1442 / 2020)

C. No. Misc/78/2016-l/ 2941 Dated: 05-03-2020

In exercise of the powers conferred under Section 25-A of the Customs Act, 1969 Customs values of Ice Cream are determined as follows:

2- Background of the valuation issue: Earlier the customs values of Ice Cream were determined under Section 25A of the Customs Act, 1969 vide Valuation Ruling No.1263/2018 dated 21-02-2018. During analysis of import data it was noticed that the current market values of the subject goods have changed significantly. Therefore, in order to rationalize the import values of subject goods, an exercise was undertaken by the Directorate General of Customs Valuation to determine the Customs Values of subject goods in terms of Section 25A of Customs Act, 1969.

3- Stakeholders’ participation in determination of Customs values: Meeting was held on 13-02-2020 with the stakeholders of subject goods. The stakeholders contended that the existing custom values are as given in Valuation Ruling were correct values and should be maintained. It was argued that as subject goods are mainly sold in high-end super/generalsestores, therefore, more expenses (shelf rent, marketing costs etc.) are incurred at retail level which cannot be managed without adding extra value to the subject goods, hence the prices get inflated in the retail market. The importers requested that all these factors be considered while determination of value of subject goods. The stakeholders were requested to submit the relevant documents.

4- Method adopted to determine Customs values: Valuation methods provided in Section 25 of the Customs Act, 1969 were duly followed and applied sequentially to address the valuation issue at hand. Transaction value method provided in Sub-Section (1) of Section 25 was found inapplicable because majority of invoices produced at import stage are not found to be as per law and also because as per internationally prescribed regulations the actual supplier invoices are not found inside containers carrying the imported goods, hence, requisite information required under the law was not available to arrive at the correct transaction value. Identical/similar goods value methods provided in Sub-Sections (5) & (6) of Section 25 ibid
were examined for applicability to determine Customs value of subject goods, this data provided some references, however, it was found that the same cannot be solely relied upon due to the absence of absolute demonstrable evidence of qualities, and quantities of commercial level etc. Information available was, hence, found inappropriate. In line with the statutory sequential order of Section 25, this office then conducted a market inquiry using Deductive Value Method under Sub-Section (7) of the Section 25 of the Customs Act, 1969, which was found to be appropriate and therefore was applied to arrive at assessable custom values of Ice Cream.

5- **Customs values for Ice Cream**: Ice Cream *hereinafter specified* shall be assessed to duty / taxes at following minimum Customs Values:
