Determination of Customs Values of Nylon Yarn Under Section 25-A of Customs Act, 1969

(VALUATION RULING NO. 1473 / 2020)

No. Misc/03/2018-IV/

5142

Dated: 18-09-2020

In exercise of the powers conferred under Section 25A of the Customs Act, 1969, custom values of Nylon Yarn, are determined as follows:-

2. **Background of the Valuation Issue:** Customs values of the aforementioned items were earlier determined through Valuation Ruling No. 1432/2019 dated 03-12-2019. A representation was received from Pakistan Yarn Manufacture Association (Pakistan), wherein they contended that value of subject item needs to be aligned with trends in international values. Keeping in the view the prevailing prices of the subject goods, this Directorate General initiated an exercise for determination of the Customs Values of the Nylon Yarn in terms of Section 25-A of the Customs Act, 1969.

Stakeholders' Participation in Determination of Customs Values: Meeting for the determination of customs values of the Nylon Yarn was scheduled on 28-07-2020. The stakeholders were requested to provide the following documents:-

- Invoices of importers during last three months.
- Website, names and E-mail addresses of known foreign suppliers of the item in question through which the actual current values can be ascertained.
- Copies of Contracts made/LCs opened during the last three months.
- Copies of Sales Tax Invoices issued during last four months.

The meeting was attended by the office bearers of Pakistan Yarn Merchants Association (PYMA), Karachi. The point of view of the participants was heard in detail and considered to arrive at customs values of the subject good. The PYMA proposed values of different types of Nylon Yarns prevalent in international values and have been obtained from CCFEI website. Documents in support of the proposed values were also submitted by the Association as well as other participants.

4. **Method adopted to determine Customs values:** Valuation methods provided in Section 25 of the Customs Act, 1969, were duly applied in their regular sequential order to arrive at customs values of subject goods. The transaction value method as provided in Sub-Section (1) of

Section 25 of the Customs Act, 1969, was found inapplicable because requisite information was not available as per law. The wide variation of values displayed in the import data as available on record also strengthened the aforementioned fact. Hence requisite information required under law was not available to arrive at the transaction value. Therefore, identical / similar goods value method as provided in Sub-Sections (5) & (6) of Section 25 ibid were examined for applicability to the valuation issue in the instant case. The same provided some reference values but could not be exclusively and solely relied upon. In line with the statutory sequential order of Section 25, this office conducted market inquiries using Deductive Value Method under Sub-Section (7) of Section 25 of the Customs Act, 1969. Wide ranges of prices were observed for some items which depend upon variety/quality /counts etc. and location of the market. Hence, this method of valuation could not be exclusively relied upon due to the aforesaid reasons. Thereafter, Sub-Section (8) was examined but valuation under this sub-section also could not be made due to non availability of conversion and processing cost of the exporting country. Finally, reliance had to be made on Sub-Section (9) of Section 25 of the Customs Act, 1969. All information gathered above was utilized, evaluated and analyzed for purpose of determination of customs values. Consequently, customs values of different types of Nylon Yarn have been determined under section 25 (9) of the Customs Act, 1969.
