DETERMINATION OF CUSTOMS VALUES OF OLD AND USED COMPUTER SYSTEM, LAPTOPS, PRINTERS AND ITS AUXILIARIES & ACCESSORIES OF ALL ORIGINS UNDER SECTION 25-A OF THE CUSTOMS ACT, 1969.

(VALUATION RULING NO 1519/2021)

No.V.Khi/13/used/25A/VII/1514

Dated: 01-03-2021

In exercise of the powers conferred under Section 25-A of the Customs Act, 1969, the Customs values of old and used computer system, laptops, printers and it's auxiliaries & accessories of all origins are determined as follows:

2. Background of the valuation issue: After conducting detailed analysis of Pakistan's imports for the year 2019-20, the Directorate General of Customs Valuation, Karachi, was tasked by FBR to identify the items / goods where variations w.r.t. values in exporting countries viz-a-viz import values in Pakistan were observed. Accordingly, a special team was constituted in Directorate General of Customs Valuation, Karachi, which identified the subject items as prone to under-invoicing as vast variations in declarations were observed. Accordingly, an exercise was initiated to determine the customs values of **old and used computer system, laptops, printers and its auxiliaries & accessories of all origins** under Section 25-A of the Customs Act, 1969.

3. Stakeholders' participation in determination of Customs values: Meeting with all stakeholders, trade bodies including representatives of clearance Collectorates were held in this Directorate General on 11-11-2020 and 17-11-2020. The importers/stakeholders were requested to submit their proposals/suggestions as well as following documents before or during the course of stakeholders' meeting so that Customs values could be determined:

- i. Invoices of import during last three months showing factual values
- ii. Websites, names and E-mail addresses of known foreign manufacturers of the item in question through which the actual current value can be ascertained.
- iii. Copies of Contracts made / LCs opened during the last three months showing the value of item in question.

- iv. Copies of Sales Tax Invoices issued during last four months showing the difference in price (excluding duty and taxes) to substantiate that the benefit of difference in price is passed on to the local buyers.

4. The meeting was attended by importers and stakeholders and their points of view were heard in detail to arrive at custom values of subject goods. The stakeholders claimed that their declared values were true transactional values and may be accepted as such. M/s Gulzar Enterprises submitted proposal of old and used computer system, laptops, printers and its auxiliaries & accessories which were considered along with import data and trends in market to arrive at customs value of said goods. However, they failed to substantiate the said claim through documentary evidences.

5. **Methods Adopted to Determine Customs Values:** Valuation methods provided in Section 25 of the Customs Act, 1969, were duly applied in their regular sequential order to arrive at customs value of subject goods. The Transaction value method as provided in sub-section (1) of Section 25 of the Customs Act, 1969, was found inapplicable because no substantial documents were provided by the stakeholders to prove that their declared values were true transactional values. Moreover, different values were declared by different importers for same product according to different origins. Identical/similar goods value methods provided in Sections 25 (5) & (6) ibid were examined for applicability to determine customs values of subject goods. The data provided some references but due to wide variations in declaration, variety and specification could not be relied upon exclusively. The valuation method under Section 25(7) provided some glimpse but without any conclusive evidence. For the purpose the computed value method as provided in Section 25(8) of the Customs Act, 1969, could not be applied as the conversion cost from constituent material at the country of export were not available. Online values of subject items were also obtained. All the information so gathered was evaluated and analyzed for the determination of custom values. Consequently, the custom values of old and used computer system, laptops, printers and its auxiliaries & accessories have been determined under sub-section (9) of Section 25 of the Customs Act, 1969.

6. **Customs values for old and used computer system, laptops, printers and its auxiliaries & accessories of all origins** hereinafter specified shall be assessed to duty/taxes on the following minimum customs values given against them in the Table below:-
