**DETERMINATION OF CUSTOMS VALUES OF NON-ALLOY STEEL STRIPS UNDER SECTION 25-A OF THE CUSTOMS ACT, 1969**

**(VALUATION RULING NO. 1526 / 2021)**

C. No. Misc/09/2017-VI / 249

Dated: 29-03-2021

In exercise of powers conferred under Section 25-A of the Customs Act, 1969, Customs values of Non-Alloy Steel Strips are determined as follows:

2. **Background of the Valuation Issue:** Earlier the customs values of Non-Alloy Steel Strips were determined vide Valuation Ruling No. 1117/2017 dated 30-03-2017. Representations were received by the stakeholders for the redetermination of Customs Values. Therefore, this Directorate General initiated an exercise for determination of the Customs Values of the Non-Alloy Steel Strips in terms of Section 25-A of the Customs Act, 1969.

**Stakeholders participation in determination of Customs values:** Meeting dated 14-12-2020 was held which was attended by the stakeholders including. The participants were requested to submit following documents before or during the course of meeting so that customs values could be determined: -

- i. Invoices of imports during last three months showing customs value.
- ii. Websites, names and E-mail addresses of known foreign manufacturers of the item in question through which the actual current value can be ascertained.
- iii. Copies of Contracts made / LCs opened during the last three months showing the value of item in question.
- iv. Copies of Sales Tax Invoices issued during the last four months showing the difference in price (excluding duty and taxes) to substantiate their contentions.

During the meeting the representative of M/s Abid Industries contended that they are one of the biggest importers of Prime Quality Cold Rolled Non-Alloy Steel Strip from Europe under PCT 7211.9090 and Prime Quality Cold Rolled Non-Alloy

Steel Strip from China and the prices of the subject goods have increased in the international market. The participants submitted documentary evidences like copies of GDs, invoices and L/Cs.

4. **Method adopted to determine Customs values:** Valuation methods provided in Section 25 of the Customs Act, 1969 were duly applied in their regular sequential order to arrive at customs value of subject goods. The transaction value method as provided in Sub-Section (1) of Section 25 of the Customs Act, 1969 was found inapplicable because wide variations of values were displayed in the import data. Therefore, identical / similar goods value method as provided in Sections 25(5) & (6) ibid were examined for applicability to determine customs values of subject goods. The data provided higher side references; however, it was found that the same could not be relied upon exclusively. In line with the statutory sequential order of Section 25, this office conducted market inquiries under sub-Section (7) of section 25 of the Customs Act, 1969, however, this method could not be exclusively relied upon because Non-Alloy Steel Strips is an industrial use item and not readily available in the local market. Therefore, valuation method vide Section 25(8) was examined for valuation but the same also could not be applied as conversion cost from the constituent material and allied expenses, at the country of export were not available for manufacturing of Non-Alloy Steel Strips. Finally, clearance data, market information and international prices through internet were examined thoroughly and the information so gathered were utilized and analyzed for determination of customs values of Non-Alloy Steel Strips under Section 25 (9) of the Customs Act, 1969.

**Customs values for Non-Alloy Steel Strips - hereinafter specified shall** assessed to duty / taxes at the following minimum Customs Values :
