

Dear Sir / Madam,

Utrade Logistics is proud to announce that “**One Window Solution**” - is formally introduced by our company, wherein customers can have direct access to various modules via our customized,

“**Client Portal**” - Enabling End-to-end encrypted Data exchange through API

Our cluster of services includes, but not limited to;

- Customs Compliance & Clearance services
- Trade Advisory services
- Regulatory Compliance
- Transportation
- Freight Management

When we say one window solution, it practically means sharing of complete and detailed information comprising;

- Automated reports – System generated dispatch / delivery reports
- Digitalized Payment mechanism – Hassel free accurate and authentic
- Daily Shipment Status - For Current & all previous jobs
- On-line container Tracking – 24/7 location sharing extendable to mobile application
- Demand Management – For current & all previously paid amounts
- Customs Clearance time – Traceable for current and all previous shipments
- Invoicing details – Complete Breakup (No hidden charges)
- Accounts Management – Complete details for current and previous shipment cost / expenses
- Bulk Cargo – Daily Dispatch and balance quantity & for all previous jobs
- Vehicle tracking – with Mobile Tracking application

and accessible through User ID and password.

Our journey towards automation does not end here, as we continuously strive to incorporate latest available technological advancement for the objective of bringing speed, accuracy and above all, Transparency in everything we do for our valued clients.
