

75.06

75.06 - Nickel plates, sheets, strip and foil.

7506.10 - Of nickel, not alloyed

7506.20 - Of nickel alloys

This heading covers **plates, sheets, strip and foil** which are defined in Chapter Note 1 (d); these products correspond to the copper products described in the Explanatory Notes to headings 74.09 and 74.10.

Plates and sheets may be used to clad iron or steel by welding, rolling, etc., and for the construction of equipment used, in particular, in the chemical industry.

This heading **excludes** expanded metal (**heading 75.08**).
