DETERMINATION OF CUSTOMS VALUES OF REFRIGERATION GASES
UNDER SECTION 25A OF THE CUSTOMS ACT, 1969

(VALUATION RULING NO. 1786 /2023)

C.No.Misc/09/2012-II/ 1588

Dated: 09-06-2023

In exercise of the powers conferred under Section 25A of the Customs Act, 1969, the Customs values of Refrigeration Gases are determined as follows:

Background of the valuation issue: Earlier, the Customs values of Refrigeration Gases were determined under Section 25A of the Customs Act, 1969 vide Valuation Ruling No.1463/2020 dated 12-08-2020. However, different stakeholders requested to determine Customs values afresh in line with values prevalent in the international market. Therefore, an exercise has been undertaken by this Directorate to determine the same.

2. **Stakeholders' participation in determination of Customs values:** Meetings were held on 16-01-2023 and 18-04-2023 which were attended by the relevant stakeholders. The issues pertaining to the valuation of subject goods were deliberated upon in detail in the afore-referred meeting. They submitted their proposals for consideration and the same were considered pertaining to the valuation of subject goods.

3. **Analysis / Exercise done to determine Customs Values:** Some of the importers contended that the values are on higher side in the international markets. Therefore, Valuation Ruling needs to be revised according to the prevailing prices in the international markets. They also submitted proposals in this regard. Ninety (90) days' clearance data has been retrieved and the same has been scrutinized. Subsequently, market inquiry has been conducted and examined in the light of this Directorate's Office Order No.17/2014 dated 19-03-2014 and in terms of Section 25 (7) read with Section 25(9) of the Customs Act, 1969.

4. **Method (s) adopted to determine Customs values:** Valuation methods specified in Section 25 of the Customs Act, 1969, were duly applied in sequential order to arrive at the Customs values of subject goods. The transaction value method as provided in sub-section (1) of Section 25 of the Customs Act, 1969, was found inapplicable due to wide variation of values in import data. Moreover, the requisite information under law was not available to arrive at correct transaction value. Therefore, identical/similar goods value methods provided

in Section 25(5) (6) ibid were examined for applicability to determine Customs values of subject goods. The data provided some references; however, it was found that the same could not be solely relied upon due to absence of absolute demonstrable evidence of quantities and qualities and variation in declaration. Information available was, hence, found incomplete. As a result, this Directorate conducted market survey under sub-section (7) of Section 25 of the Customs Act, 1969 wherein various Wholesale and Retail Markets were visited to observe the actual prices of Refrigeration Gases of China origin. Moreover, valuation method under Section 25(8) of the Customs Act, 1969 was examined but, due to non-availability of conversion cost of the Exporting country, the aforementioned method could not be applied either. Finally, on the basis of available data / information collected and exercise conducted, the values of Refrigeration Gases have been determined under sub-section (7), read with Section 25(9), of Section 25 of the Customs Act, 1969.

5. **Customs values of Refrigeration Gases-** Refrigeration Gases, hereinafter specified, shall be assessed to duty / taxes at the Customs values as per the following table:
