

Short supplies from 2 Gas Fields badly hits SSGC's system

Since early morning today (Thursday), SSGC has been facing tough challenges, as two of the gas fields from which SSGC purchases the natural gas are providing accumulative short supplies of 120 mmcf.

Kunnar-Pasakhi is supplying 100 mmcf gas short due to power failure at their end whereas Naimat Basal is providing 20 mmcf short gas due to some technical reasons.

These short supplies have badly hurt our system and our management is trying its best to manage the gas load by keeping the domestic sector on top priority.

SSGC is monitoring the situation and will keep the stakeholders posted.

Inconvenience caused to our esteemed customers in this regard is regretted.

With best regards,

Salman A. Siddiqui

Head of Corporate Communications
and Official Spokesperson
