DETERMINATION OF CUSTOMS VALUES OF DISPOSAL/AUTO DISABLE SYRINGES WITH NEEDLES UNDER SECTION 25A OF THE CUSTOMS ACT, 1969

(VALUATION RULING NO. 1883 /2024)

C.No.Misc/09/2009/IX/558

Dated: 30-05-2024

In exercise of the powers conferred under Section 25A of the Customs Act, 1969, the Customs values of Disposal/Auto Disable Syringes with Needles are determined as follows:

2. **Background of the valuation issue:** Earlier, the Customs values of Disposal/Auto Disable Syringes with Needles were determined under Section 25A of the Customs Act, 1969 vide Valuation Ruling No.1687/2022 dated 03-08-2022. However, different stakeholders requested to re-determine Customs values afresh in line with values prevalent in the international market. Therefore, an exercise has been undertaken by this Directorate to determine the same.

3. **Stakeholders' participation in determination of Customs values:** Meeting was convened on 14.05.2024 which was attended by all the relevant stakeholders. The issues pertaining to the valuation of the subject goods were deliberated upon in detail in the afore-referred meeting. The stakeholders submitted their proposals and the same were considered pertaining to the valuation of subject goods. The importers contended that the Customs Values of Disposal/ Auto Disable Syringes with Needles determined vide Valuation ruling No.1687/2022 dated 03-08-2022 are higher and the same need to be revised according to prevailing international prices. They further emphasized to take into consideration the difference between exorbitant freight charges at the time of issuance of last VR and current freight charges.

4. **Analysis / Exercise done to determine Customs Values:** The aspect of freight cost from China was checked through websites as well as freight invoices issued for impugned goods imported from China. The analysis showed that reduction of 160% in freight cost occurred during the last 2 to 3 years. M/s MSB Medical Pvt Ltd requested that Qatar origin may be included in the VR owing to its increasing import volume. Analysis of import data of syringes from Qatar during the past four years transpired that import value, quantity and duty/taxes collection from import of syringes from Qatar increased by 67%. Hence, the request of M/s MSB Medical Pvt Ltd merits consideration and the same has been included in

this VR. Data analysis of total import volume and duty/ taxes before and after issuance of VR suggested that import volume and duty/taxes have reduced 46% and 15% respectively after the issuance of Valuation Ruling No.1687/2022 dated 03-08-2022. M/s Rehman Medicine Co, submitted export GDs in which declared value of 1 ML syringe was US\$ 1.70/ 100 PCS and for 10 ML syringe was US\$ 2.70/ 100 PCS. M/s Syah Impex submitted export GD in which declared value of 10 ML syringe was US\$ 2.75/ 100 PCS, which shows that customs value of disposable syringe has declined since issuance of last VR. Subsequently, market inquiry has been conducted and examined in the light of this Directorate's Office Order No.17/2014 dated 19-03-2014 and in terms of Section 25 (7) read with Section 25(9) of the Customs Act, 1969, which supported the stance of the stakeholders that value of Disposal/ Auto Disable Syringes with Needles had reduced considerably.

5. **Method (s) adopted to determine Customs values:** Valuation methods specified in Section 25 of the Customs Act, 1969, were duly applied in sequential order to arrive at the Customs values of subject goods. The transaction value method as provided in sub-section (1) of Section 25 of the Customs Act, 1969, was found inapplicable due to absence of information as required under sub-section (2) of Section 25 of Customs Act, 1969. Therefore, identical goods value method provided in Section 25(5) was examined for applicability to determine Customs values of subject goods. The data provided some reference; however, it was found that the same could not be solely relied upon due to absence of absolute demonstrable evidences of quantities and qualities. Information available was, hence, found incomplete. Subsequently, similar goods value method provided in Section 25(6) was examined for applicability to determine Customs value of subject goods. However, Declared Values of similar goods had shown consistent variations. Hence, this method was also found inapplicable. Market enquiry as envisaged under Sub-Section (7) of Section 25 of the Customs Act, 1969 was also conducted but could only yield results to some extent because of variations in market prices. In line with statutory sequential order of section 25, Computed value method, as provided in Section 25(8) of the Customs Act, 1969 was examined, but the same also could not be applied as the conversion cost from the constituent materials and allied expenses, in the country of export, were not available for manufacturing of Disposal/Auto Disable Syringes with Needles. Finally, the Customs values of the subject goods have been determined under Section 25(9), read with Section 25(7), and Customs Rule 121(2) of Customs Rules, 2001 which provides that the methods of valuation, to be employed under sub-section (9) of section 25 of the Customs Act, 1969 may be inclusive of those laid down in sub-sections (1), (5), (6), (7) and (8) of the said section, but a reasonable flexibility in the application of such methods would be in conformity with the aims and provisions of sub-section (9) of that section.

6. **Customs values of Disposal/Auto Disable Syringes with Needles:** Disposal/Auto Disable Syringes with Needles hereinafter specified, shall be assessed to duty / taxes at the Customs values as per the following table:-

S.No	Description of Goods	PCT Code	Proposed PCT for WeBOC	Origin	Customs Values (C&F) US\$ 100/Pc

			9018.3110.2100	Other Origins	3.45

7. In cases, where declared values are higher than the Customs values determined in this Ruling, the assessing officers shall apply those values in terms of sub-section (1) of Section 25 of the Customs Act, 1969. In case of consignments imported by air, the assessing officers shall take into account the difference between air freight and sea freight while applying the Customs values in this Ruling.

8. **Validity of this Valuation Ruling:** This Ruling, containing the Customs values for assessment of subject imported goods, shall be applicable until and unless the same is rescinded or revised by the competent authority in terms of sub-section (4) of Section 25A of the Customs Act, 1969.

9. **Revision of the values determined vide this Valuation Ruling:** If aggrieved, a revision petition may be filed against this ruling as provided under Section 25D of the Customs Act, 1969, within 30 days from the date of its issuance, before the Director General, Directorate General of Customs Valuation, 7th Floor, Custom House, Karachi.

10. The Collectors of Customs may kindly ensure that the values given in this Valuation Ruling are applied by the concerned staff without fail. Any anomaly observed may kindly be brought to the notice of this Directorate immediately. Customs values determined in the Ruling are for the description and specification as mentioned in the table above of this Ruling. PCT Codes are mentioned for illustrative purposes so that Valuation Ruling values are made accessible to the assessing officers. The assessment shall be finalized on the basis of correct classification after fulfilling requisite formalities related to importability or any other certifications required thereon. In addition to this, it is further necessary to verify that there is no mis-declaration of any sort or violation of Import Policy Order or Section 15 of the Customs Act, 1969 or any other law in vogue therein.

11. ***This Ruling supersedes the Valuation Ruling No. 1687/2022 dated 03-08-2022.***
